

Hellma Italia is pleased to invite you to the
Workshop

UniStar: Chemometric Solution for improved Near Infrared Database Structure

The workshop will take place on 26th May, 2010 in
the afternoon, starting at 2.00pm. location:
"Pentagono" Centre of
AGRIPOLIS, Viale dell'Università, 16 - 35020
Legnaro (Padova).

It will be held in English by Dr. John Shenk and
Prof. Paolo Berzaghi.

In that occasion, a 30 days demo version of the
software will be installed on your private laptop,
on request.

The workshop will be covering the following topics:

- The Neighbor distance principles.
- Streamlined calibration tools, database expansion.
- Advancements in calibration techniques, database condensing.
- Universal third party software tools and how they apply to you and your application.

To confirm your participation and for further information, please contact:

Prof. Paolo Berzagli paolo.berzagli@unipd.it
Claudio Gasparini claudio@hellma.it tel. +39
3357450676
